Database	-	MongoDB, SQL
Tools	-	Git, Github, VS code, Postman, Jira board, Bitbucket

PROFESSIONAL EXPERIENCE

Software Development Engineer

HONEYSYS, BANGALORE   Jan 2023 to Present, on-site

- Dynamic Table Implementation, similar to the functionality offered by the third-party library Ag-Grid using **React** and **Redux**.
- Optimized and rewrote many modules of the e-commerce (**using Next, Redux, and Typescript**) and admin site (**using React, Redux, Webpack, and Typescript**).
- Designed and developed customizable food item features, similar to the options offered by leading platforms like Zomato and Swiggy using **React**.
- Implemented drawers for enhanced user interaction.
- Implemented customizable admin settings for various e-commerce, and admin platforms using **redux** for handling many clients.
- Implemented access and refresh tokens through global middleware using **JWT**.
